**Address: Rustic Oaks Ranch**  
23708 La Salle Dr, Santa  
Clarita, CA

Filming in a forest is a great opportunity and Rustic Oaks is a wonderful and lavish oak forest, but there are certain basic information and guidelines that must be followed. We are in a natural and wild environment and there are many hidden dangers. Keep your eyes open and don't wander around!

- Do not smoke inside the forest, there will be a designated area specifically for it.
- Look out for poison oak! Above you can see pictures of it, it's a three-leaf glossy plant. If you get in contact with it, do not panic. We have tissues and anti-poison oak lotions. Make sure you come to us before and after the shoot to get the anti-poison oak lotion on you!!
- Keep an eye out for snakes. It shouldn't be a problem, but if you do see one contact someone from the crew immediately.
- Do not wander around, always be with a member of the crew.
- Always walk on the path and don't run.
